Year 8

Home Economics

Textiles Technology

FAIRHOLME HOME ECONOMICS DEPARTMENT

Course: YEAR 8 Textiles & Design

Outline: TERM 1 & 2, 2017

Term One or Two

Students undertake Textiles & Design for one term. They participate in two practical lesson per week.

Through exposure to colour and design possibilities that are relevant to the required product, students should:

- acquire knowledge and understanding of colour and basic sewing techniques and how the satisfaction gained from making an item can give immense pleasure
- acquire knowledge of a variety of practical sewing skills and techniques
- develop confidence in making decisions about their artistic abilities and choices as well as strategies to apply to their sewing to further enhance their “own made” product.
- develop an understanding of the importance of tidiness and safety in the sewing room
refine ideas presented in order to improve artistic appeal to adolescents
