

ACADEMIC PROGRAMS

Semester I

Year 8

Food Technology

FAIRHOLME COLLEGE

HOME ECONOMICS DEPARTMENT

Course: Year 8 Food Technology

Outline: TERM 1 or 2, 2017

Introduction:

Term One or Two

Students undertake Food Technology for one term. They participate in one theory and one practical lesson per week.

Throughout this unit students should:

- acquire knowledge and understanding of basic characteristics and properties of food, preparation techniques and presentation
- develop an understanding of the importance of hygiene and safety in the kitchen
- develop confidence in making decisions about their health and strategies to apply in the kitchen to further enhance their nutritional health
- acquire knowledge of a variety of practical cookery skills and techniques
